## Volume 4

**La Jolla Academy of Medicine** was founded in 1982 for the purpose of recognizing and honoring physicians who have practiced medicine in the La Jolla community for 20 years or longer. Since its inception, the Academy has inducted over 300 physicians.

The Academy's programs provide opportunities for La Jolla physicians to spend time with colleagues and former colleagues in a setting away from the rigors of daily practice. Members generally meet twice a year for brunch or dinner at the La Jolla Beach and Tennis Club. There are no annual dues, and the cost is limited to the charges for the event. This year, members are also invited to spend a day at the races at the Del Mar Thoroughbred Club in a more informal atmosphere.

## La Jolla Academy of Medicine Honors Dr. Mary Wilde

On April 3, 2011, La Jolla Academy of Medicine welcomed new member Dr. Mary Wilde.

As medical director for the Scripps Polster Breast Care Center at Scripps Memorial Hospital La Jolla, Dr. Wilde focuses exclusively on diseases of the breast. Prior to coming to Scripps, she was surgical director of the emergency unit at Boston's Beth Israel Hospital and an instructor in surgery at Harvard Medical School. Dr. Wilde was also a research assistant at the Dana Farber Cancer Institute and completed her postdoctoral training at Beth Israel Hospital, Harvard Medical School.

She received her medical degree from University of California, San Francisco, and earned a Bachelor's degree in Human Biology from Stanford University, where she was a member of a primate facility work group under the director of famed researcher, Jane Goodall. Dr. Wilde is a fellow of the American College of Surgeons.

The induction ceremony took place at the La Jolla Beach & Tennis Club, which has served as the venue for the Academy's induction ceremonies for many years.
